

REWARDING EXCELLENCE

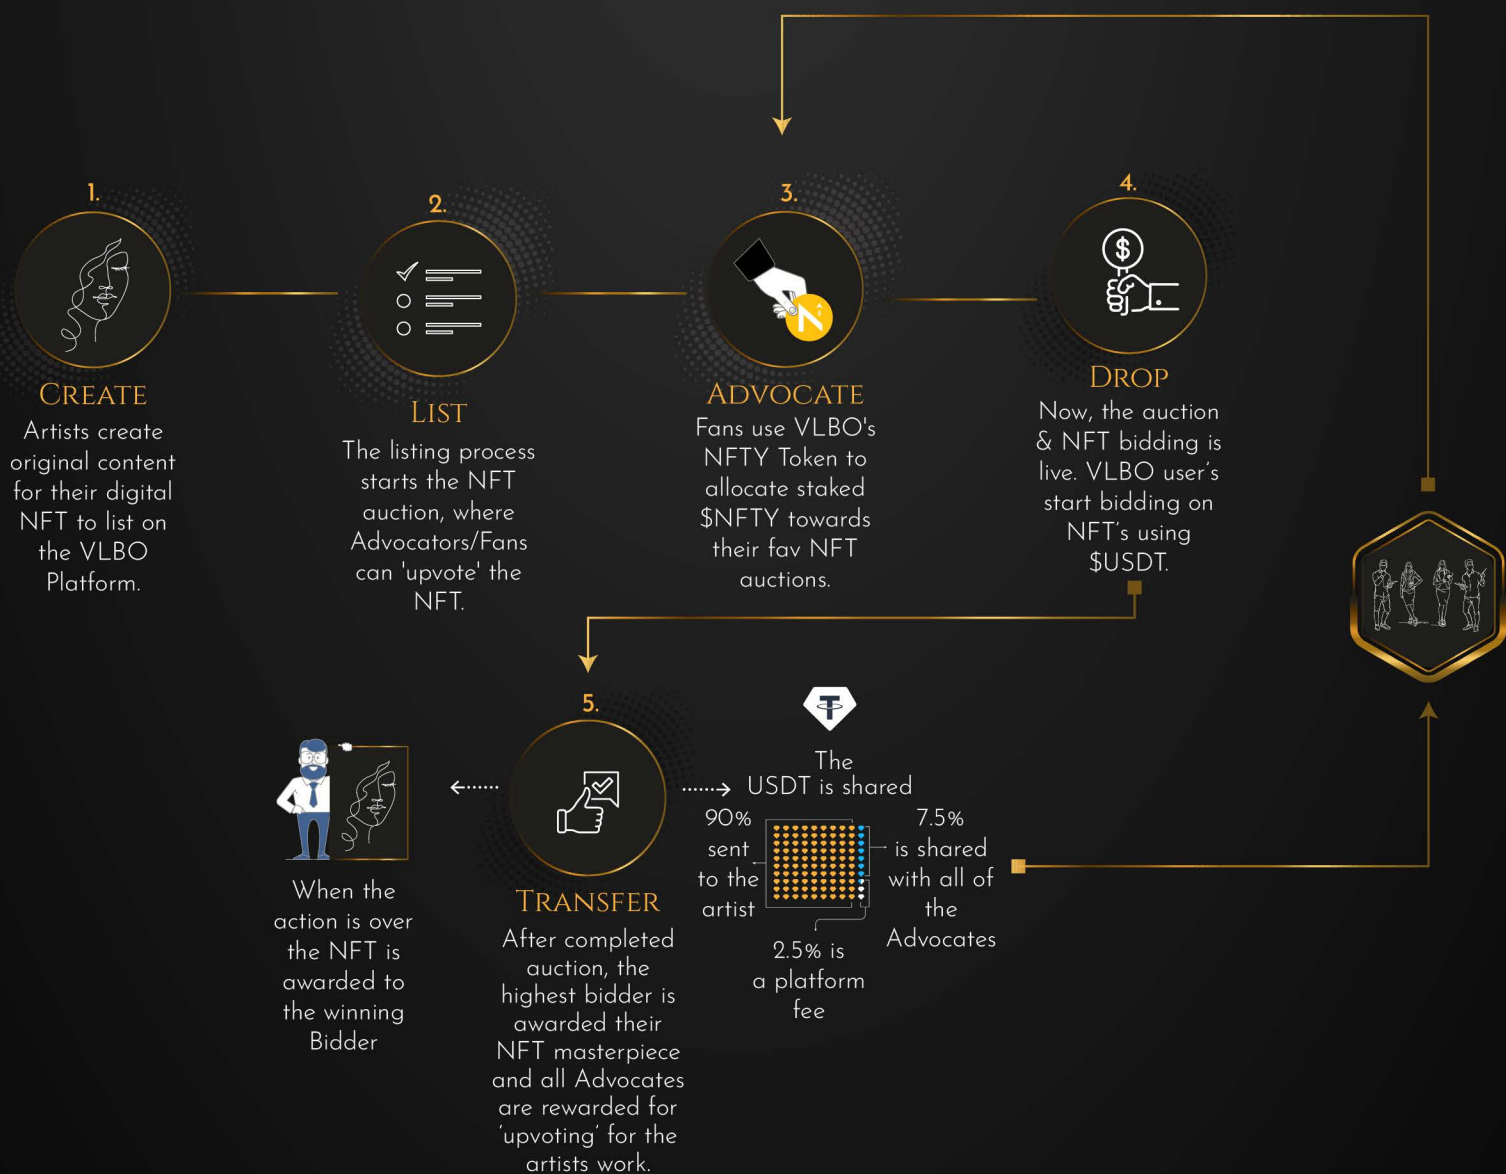

FIVE STEPS TO WORLD RENOWN

VLBO harnesses the wisdom of tastemakers to enhance the discoverability of quality NFTs. VLBO is the only white glove NFT auction service in the world. Your time and talent deserve recognition. That is what VLBO delivers.

- 01** First, do what you do best: create something spectacular. This can be a painting, sculpture, photograph, or a piece of music. It can be physical or completely digital. However, it must meet the standards of the VLBO platform.
- 02** Now you are ready to mint your NFT. Some members will be so smitten that they will begin upvoting your creation. This involves placing staked NFTY tokens towards auctions of interest.
- 03** The third stage, advocacy, is critical because VLBO rewards good judgement as well as exemplary work. Without the discernment of these connoisseurs, your work, as it would on other platforms, would remain a diamond in the rough.
- 04** Next comes the drop. After your fans finish boosting your item, the auction begins. Here top-tier collectors bid for your NFT. To protect your talent and time, no item under \$1,000 USD can be listed on VLBO.

Finally, the NFT is transferred to its new owner. Your masterpiece finds a new home in the hands of a high profile collector. You, and all those who advocated on your behalf - enhancing the discoverability of the item - are rewarded.
