

THE EARTH WITHOUT ART IS JUST "EH."

VLBO'S CONCIERGE TEAM: EXPERTS ASSISTING ARTISTS IN THE NFT SPACE

NFTs can be tricky:

Tokens, wallets, minting, auctioning, buying, trading, paying gas fees, and locating taxable events with NFTs...

It's pretty overwhelming. Fortunately, VLBO lets artists focus on what they do best: **creating quality art.**

VLBO's full-service concierge support is now available to upcoming NFT artists. VLBO handles everything - click "request" and we do the rest.

VLBO's commitment to quality is evident in every aspect of our platform. We put our participants first. By barring the stolen, plagiarized, and unimaginative items that mar other NFT platforms, VLBO can maintain a concierge team to deliver an unmatched level of service, support, and satisfaction.

On VLBO, artists know they will only be listed beside other exceptional creators. They know they will receive expert guidance to ensure their auctions run smoothly and receive the attention they deserve. By making the minting process almost effortless, artists on VLBO can set their sights on enduring monetization and renown.

An artist shouldn't need to be a blockchain specialist. This is why VLBO handles the details. This lets creatives do what they love. That's how it should be - VLBO stands out by appreciating this crucial distinction, by respecting your time and energy as an artist. If you can push a "launch" button, you can sell your art on VLBO.
